

Conformity Attestation

No.: KIWA-25-DW-10484

of the certification body

regarding the suitability of products for drinking water
hygiene – Ceramic materials (P3)

Product: **Small components of ancillaries where the surface portion in contact with water < 1% in the ancillary (P3)**
Fc = 0.02 d/dm
Temperature ≤ 85°C
Al₂O₃ ceramic
ITK-AL96
96% alumina oxide ceramic products (white)

Manufacturer: **IT-Keramik S.r.l.**

Via Manzoni, 35
22030 Orsenigo (CO)
Italy

based on typetesting (without external supervision; simplified procedure)

Reference / confirmation:

It is hereby confirmed that the above mentioned product / component based on:

- the certification program "D6 Special conditions for the conformity attestation regarding the suitability of products for drinking water hygiene, Rev.5 dated 19.07.2023" of the certification body:
„Kiwa GmbH, Gutenbergstr. 29, 48268 Greven“,
- the Recommendation “Conformity attestation of product hygiene suitability for drinking water”,
- the product information provided, including the composition evaluation R21048,
- the evaluation reports/test reports mentioned on page 2,

fulfills the requirements of the assessment basis/guideline of the Federal Environment Agency (UBA):

- Evaluation Criteria Document for enamels and ceramic materials in contact with drinking water

Greven, 14.04.2025

i.A. Dipl.-Kffr. Beatrice Ostermann
- Deputy Head of Certification Body –

Valid from 14.04.2025
Valid until 26.02.2030
Number of pages 2

This conformity attestation applies to the following products / components:

ITK-AL96

Small components of ancillaries where the surface portion in contact with water < 1% in the ancillary (P3): 96% alumina oxide ceramic products (white)

The following mentioned evaluation reports/test reports, (deposited at Kiwa)

Testreport: **24-11827k dated 27.02.2025 and R21048**
Examination of the composition according to the Evaluation
Criteria Document for enamels and ceramic materials in
contact with drinking water (19.08.2024)

are part of the conformity attestation.

The attestation of conformity is valid from the date of issue and remains valid until 26.02.2030 as long as the conditions listed under "Notes" are fulfilled.

Notes:

The conformity attestation was issued under the condition that the starting materials used to manufacture the product or their composition and/or components, including their manufacturer and supply chain, were fully disclosed and no other substances are contained in the product.

The validity of this document expires in case of changes in the composition of the product or in the processing conditions not agreed with the certification body and in case of non-compliance with the conformity requirements as well as in case of termination of the 1+ system monitoring program of the certification body and manufacturer.

The results of our audits and the assessments apply to the test items examined and the statutory regulations applicable at the time of the audit. This document may only be published or reproduced in complete and unchanged form without our express written consent.
